

April 9, 2018

Dear Parents/Guardian,

We would like to inform you of our Positive Behavior Support (PBS) Reward Celebration happening in June at the end of the school year at The Bob Keefer Center (Willamalane) for 6/7th grades and Honeyman Lake for 8th grade. Beginning today, all Briggs Middle School students will be eligible for the field trips scheduled for June 13th and June 12th respectively.

The PBS Team and Briggs staff have been working this year to teach and model for our students **responsible, respectful and safe behavior**. Most students have been doing a great job and we would like to reward students with these special events.

Students who do not receive a Major referral from Monday April 9, 2018 through Tuesday June 11, 2018 will be eligible for the field trip. Those students unable to follow these guidelines will be ineligible and will remain in study hall to complete schoolwork. *Administration does have flexibility to allow a student to attend if behavior has improved after the infraction has occurred.*

The PBS team and the staff of Briggs Middle School ask that you review with your child the expectations for behavior at school. Please refer to the Briggs Student Handbook for a list of expectations. Please know that, as part of our PBS program, we have weekly drawings with small rewards to encourage and recognize Briggs students for positive behaviors.

If you have any questions or concerns, please contact Principal Jeff Mather, Assistant Principal Paul Weill, or Counselor Austin Hill at 744-6350.

Thank you for your support,

PBS Team and Briggs Middle School Staff
