

FROM THE PRINCIPAL

Dear Parents and Community Members,

Every fall the State of Oregon releases a report card to provide an overview of school successes and challenges. The purpose of this report is to provide an overall measure of student performance, relative to other schools of similar size and demographic make up. While a valuable tool for use in comparative analysis, we believe it is only one picture of student success and growth.

Our school and our district metrics continue to show student growth and achievement on the rise, but also provide a picture of areas where growth is needed. We remain committed to our core belief that all students can and will learn. This is accomplished through the skill and strength of our teachers. Believing that strong practices make strong practitioners our school will work to support the practice of our hardworking staff.

Supporting our skilled teachers through professional development on the rigorous standards, working with the district to address needed curriculum updates, along with providing multiple layers of support to meet all students where they are, we are confident all of our students will be prepared to grow into their full potential.

I encourage you to review the school's performance in each area listed below as well as the unique offerings outlined following the statistical data. Those with additional questions about the report or how to support our students may contact the school, or the district office. We know that strong partnerships including parent and community involvement provide the greatest outcomes for our student and we are thankful your involvement in our students' educational experience.

Thank you,

Principal | Jim Crist

SCHOOL PERFORMANCE

Performance of students enrolled in the school for a full academic year

Did at least 95% of the students at this school take required assessments? Yes No, Interpret Results with Caution
Participation rate criteria are in place to ensure schools test all eligible students.

The Smarter Balanced and alternate assessments have four performance levels where levels 3 and 4 are meeting the standard for school and district accountability.
